

Amendments to the Abstract

Please **amend** the Abstract to read.

-- The invention refers to a method for indicating the current status of a removable media device (4) provided for being loaded with at least one removable medium (5), and being connected to a device (1) for reading and/or writing AV storage media. The method has the steps of

- checking the type of user input upon occurrence of user input,
- keeping the status of the removable media device (4) if the type of user input is not related to the removable media device (4),
- else checking whether a characteristic feature of the at least one removable medium (5) has changed,
- keeping the current status if the characteristic feature of the at least one removable medium (5) has not changed, and
- else updating the status.
